The Easiest Way to Get the Protein You Need and Lose the Weight You Want

Specially made by a pastry chef for a great taste and formulated for easy digestion, you'll feel better, build and tone muscle faster, and have more energy!

There are a lot of reasons to take a protein powder daily.

Maybe you simply need to add protein to your

For a long time I've wanted to have a healthier lifestyle. I took literally everything to lose weight, but nothing worked until I discovered Life Infused, an ally that I know came into my life to stay. I started taking Clean-se Infused

 **Enhancing your immune system to fight illness and disease.**

A Protein Powder with a Great Taste that Digests Easily

Protein powders have a reputation for having a blah taste. They often also upset the stomach. The health benefits are worth it, but really, why suffer if you don't need to?

At least, that was our thought when we created Protein Infused.

Marcy H.

Instructions	FAQs	Reviews	

Now to make it digest easily, we knew we had to address the big reason protein powders cause stomach discomfort.

Protein Digestion Is a Problem for Many People

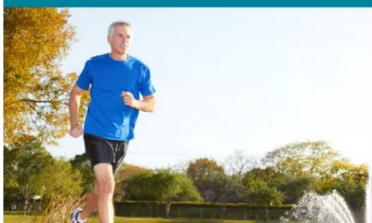

The big problem for a protein powder is the protein itself. It may sound odd, but consuming a lot of protein at once can really tax diges-tion. And poor or inefficient protein digestion can lead to an upset stomach.

On top of that, digesting protein is a challenge for many people. It demands a lot of digestive enzymes which start to decrease after the age of 30. A diet high in processed foods, sugars and fats also depletes digestive enzymes.

And no matter how good the protein is, if digestion is a problem, an upset stomach follows.

Protein Infused addresses this exact problem. Better yet, by ensuring complete digestion, you get more of the health benefits too!

Here's how we did it...

PROTEIN INFUSED FEATURES ENZYMES

having tried so many things on the market, I was distraught. I began a pro-gram of Digest Infused, Flora Infused™ and Algae Infused™ feeling there was nothing to lose. To my great delight, there were significant improvements within a

In Protein Infused we included a proprietary blend of enzymes called Astrazyme™. This blend is clinically proven to:

- Achieve 95% digestion of protein***
- Boosts amino acid absorption by 60%***
- Increases peptide absorption by 41%***

And better protein digestion means a happier stomach. It also means better absorption of the protein nutrients, the reason you're taking it in the first place!

The nutritional benefits are only the beginning.

Pea

Pumpkin

Brown Rice

In fact, a single-serving of hemp alone provides all 9 essential amino acids! Combined with pea, pumpkin and brown rice, Protein Infused meets every dietary and training need. And for maximum benefit, we added two powerful metabolism boosters to support weight loss and weight management goals.

Metabolism Booster #1:

Protein supports fat burning, the breakdown of fat into energy.ⁱⁱⁱ But just like enzymes are required to digest protein, enzymes are needed to break down fat. That's why we've added lipase to Protein Infused!

Lipase is the enzyme the body uses to break down fat. With every serving you get 2,500 FIP (a standard measure of enzymes) of lipase to support the break down and metabolism of fat.

This helps with weight loss, keeping you slim. Plus, adding protein with exercise and a healthy lifestyle you get toned and time in no time!

But it's not all about looks. By keeping fat burning high, you also keep your metabolism going strong, which is why we added the second metabolism booster.

Metabolism[®] Booster #2:

Innoslim[®] is a pharm-grade, plant-based weight loss ingredient.

It's an extraction from notoginseng and astragalus. Together, the active compounds in these herbs:

 Description	 Benefits	 Ingredients
 Instructions	 FAQs	 Reviews

0

-  **Enhance glucose metabolism for better blood sugar levels**
-  **Reduce glucose absorption**
-  **Activate adiponectin, a hormone your body uses to regulate blood sugar and fat metabolism^{iv}**

Being stimulant free, Innoslim[®] provides a safe and effective way to promote healthy blood sugar, burn fat and lose weight on a long-term basis.

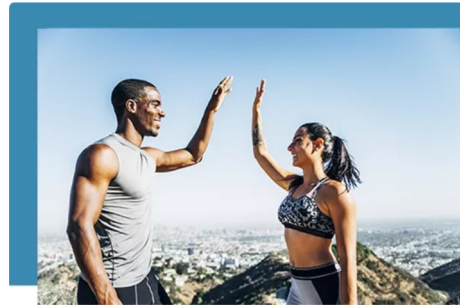

Supercharge

your

Metabolism

with

**Protein
Infused**

Your metabolism thrives on protein. The hormones that keep your metabolism running high are made of protein. The enzymes that support digestion and drive metabolism are made of protein.

You need protein. You need it for energy, to digest food, to remove waste and toxins from the blood, and to keep your

cell young and immune system strong.

Recover from Workouts and Physical Labor Faster

Physical labor and exercise exhaust muscle and require protein to rebuild. It's why body-builders turn to protein supplements like *Protein Infused*.

It supplies all the necessary amino acids which speed recovery to help you feel good and get back on your feet faster!

Get Toned Easier

Protein Infused special formula with its two metabolism boosters help burn fat and improve muscle mass.

This makes it a fast, effective way to slim down and get toned.

Get the Protein You Need, Lose Weight and Feel Great with Protein Infused

With *Protein Infused* you get high-quality, plant-based proteins enhanced with two metabolic boosters. The addition of enzymes improves digestion, easing digestive discomfort common with many protein powders, especially those featuring dairy.

For maximum nutrition, we've also included...

YOU GET

 Description	 Benefits	 Ingredients
 Instructions	 FAQs	 Reviews

0

An organic cruciferous blend of broccoli, kale, parsley and cabbage for additional nutrition, to improve recovery speed and to boost the body's natural anti-oxidant levels.

An organic berry blend including acerola cherry, blueberry, goji berry and cranberry to further enhance availability of antioxidants, protect against toxins, lower inflammation, support metabolism and for their anti-aging effects.

We Also Added Probiotics to Support Digestion and Improve Nutrient Absorption

A healthy digestive tract is essential for good digestion and nutrient absorption. Probiotic bacteria play an essential role in keeping your digestive tract healthy, so we've added a proprietary probiotic and prebiotic blend to help you get the maximum possible benefit from every serving of Protein Infused™.

Every serving provides up to 4 billion CFUs of probiotics. The added prebiotics support the probiotic bacteria for a healthy gut and better protein digestion!.

Get the Protein You Need with a Taste You'll Love

How to Use For the best results

Take as desired with one (1) full scoop mixed with water or your favorite beverage. Make sure to stir completely.

FREQUENTLY ASKED QUESTIONS

Protein is essential for human life. Every cell in the body is made of protein building blocks called amino acids. These are needed to support the immune system, build and maintain muscle, regulate metabolism and hormones, lose weight and keep your skin and hair healthy and looking good and so much more.

Whether you need a dietary protein supplement or want added protein in your diet to enhance your workouts, Protein Infused has what you need. Here are some commonly asked questions. If you have a question you don't see here, please contact us. We're happy to answer any of your questions.

Is a protein powder

right for me?

 Description	 Benefits	 Ingredients	0 
 Instructions	 FAQs	 Reviews	

or essential amino acids to maintain health. For any one looking to build muscle mass, tone muscles or lose weight, a protein powder can help by supplying essential proteins and nutrients without the added calories.

Will a protein powder help me lose weight?

Protein burns more calories during digestion, meaning eating protein is a lower caloric load than carbs. Protein also provides important amino acids needed to regulate metabolism. Plus, protein reduces appetite, so you'll feel fuller. Protein Infused also includes Innoslim[®] a clinically proven metabolism booster and lipase, the enzyme the body needs to support fat burning.

What is Innoslim[®]?

Innoslim[®] is a pharma-grade extraction of astragalus and notoginseng proven safe for long-term use for weight loss, blood sugar management, and fat burning. It supports calorie burning and increases adiponectin, a hormone that regulates blood sugar

What is Lipase?

Lipase is the main enzyme that breaks down

fatty acids during digestion. It is essential for the digestion and absorption of fatty acids

 Description	 Benefits	 Ingredients
 Instructions	 FAQs	 Reviews

0

What if I don't like the taste?

We've worked hard (in fact a pastry chef was brought in to help!) to create a great-tasting vanilla protein powder. We think you'll find it's the best tasting protein powder on the market. If you give it a try and don't like it, contact us. You're covered by our 100% satisfaction guarantee.

Why did you include enzymes in Protein Infused?

When it comes to nutrition, it's not about how much you take, it's about how much you get. Enzymes help digest and absorb protein, so you get more of what you paid for. By aiding digestion, the enzymes also eliminate the common issue of gut ache that happens with consumption of protein powders. We added lipase to support fat burning and metabolism:

Why are probiotics added to Protein Infused?

Probiotics support healthy digestion, the key to healthy living. How well a person digests

their food, especially proteins, has a significant impact on their health. Poor

 Description	 Benefits	 Ingredients
 Instructions	 FAQs	 Reviews

0

Probiotics aid digestion and nutrient absorption and help to restore gut health for improved digestion.

Is a plant-based protein as good as a whey protein after a workout?

Our plant-based protein blend of hemp, pea, pumpkin and brown rice supplies all the essential amino acids you need, without the possible allergens common in dairy.

How can I get the most out of Protein Infused?

Take it once a day as part of your vegan diet or to lose weight. Use it after workouts if you're using it to build muscle or get toned. Exercise often to make the most use of the its protein and fat burning ability.

Where is Protein Infused made?

Protein Infused is a product of the U.S.A and is made in an FDA-inspected facility, following the strictest standards.
